

PALOS HILLS

UPGRADES FIRE CODES FOR A SAFER COMMUNITY

Congratulations Mayor Gerald R. Bennett and Palos Hills Aldermen!

Recently, the Village of Palos Hills passed an ordinance requiring all new single-family homes to be protected with a residential fire sprinkler system following the NFPA 13D standards. In addition, all new multi-family apartments, condos/townhomes will require fire sprinkler protection. Also, all new commercial buildings require fire sprinklers following NFPA 13.

As a result, Palos Hills has become a fire safe community protecting those who live, work and visit there. It also helps safeguard the firefighters who respond to the incidents.
