

80% of Fire Fatalities Happen in Homes.

Fire Sprinklers Can Prevent Practically Every One of Them.

Whether a high-rise condo downtown, an apartment in the neighborhood or a house in the suburbs, people are most at risk from fire in their homes. Fire sprinklers are the best defense against fire. They can control flames and lethal smoke in seconds, and often extinguish the fire in less time than it takes the fire department to arrive.

As professional fire sprinkler installers, the members of Sprinkler Fitters Union Local 281, U.A., are proud of our work and the lives the systems we install have saved. Have fire sprinkler systems installed by professionals in your properties and everyone will be able to sleep safer.

For more information call Sprinkler Fitters Union Local 281, U.A. at 708-597-1800 or visit www.sprinklerfitterchicago.org. If you need resources for updating your codes, contact the Northern Illinois Fire Sprinkler Advisory Board (NIFSAB) at 708-403-4468 or visit www.firesprinklerassoc.org.
